Education

Arizona State University, Tempe, AZ

B.S. in Information Technology, Summa Cum Laude – 2025

University of Central Florida, Orlando, FL

B.S. in Psychology – 2009

Professional Experience

AT&T – Field Technician

May 2011 – Present

- 14+ years of hands-on experience in telecommunications and networking
- Installed, maintained, and troubleshoot complex network systems
- Delivered customer-focused technical support in high-pressure environments

Technical Projects

MarketProj – Stock Trading Simulator

GitHub: github.com/bcvogel/MarketProj

- Developed a full-stack app simulating realistic stock trading with admin tools
- Implemented user auth, real-time price changes, and market scheduling
- Built REST APIs, Dockerized services, and used relational databases

Skills & Tools

- Networking: TCP/IP, routers, cabling
- OS: Linux, Windows Server, macOS
- Scripting: Python, Bash, JavaScript
- Web Dev: APIs, FastAPI, React, HTML/CSS
- DevOps: Docker, Git, GitHub, PostgreSQL
- Virtualization: VMware, VirtualBox
- Security: Auth flows, password hashing, secure coding

Strengths

- Strong foundation in IT, networking, and computer science
- Self-starter with field-tested troubleshooting skills
- Lifelong learner who enjoys building practical tech solutions
- Excellent communicator and reliable team player
